

ENVIRONMENTAL SCIENTIST/GEOLOGIST/ENGINEER

About the Company

Established in 1927 as Toledo Testing Laboratory, TTL Associates, Inc. has grown to be a full-service environmental, geotechnical engineering, industrial hygiene, materials testing and drilling firm. We focus primarily on the following markets: Commercial, Development / Redevelopment, Education, Energy, Healthcare, Federal Government, Local and State Government, Industrial, Retail and Transportation. We offer company support for industry licenses, continuing education opportunities, and the tools and resources to provide high-quality solutions for our clients. As an integral member of the team, you enjoy a highly competitive salary and benefit package and a flexible workplace.

About the Position

Our **Environmental Scientists** are active practitioners in a wide variety of environmental projects in the private and public markets, including the Federal Government. You will work under the guidance of a senior environmental professional and be given every opportunity to advance in your field.

Responsibilities

- Conduct Phase I Environmental Site Assessments (ESA), research, and report writing.
- Conduct Phase II ESA field sampling, data evaluation, and report writing.
- Conduct field sampling activities, including, but not limited to, soil sampling, surface water sampling, groundwater sampling, soil vapor sampling and stormwater sampling.
- Provide environmental and contractor oversight and logging for soil borings and monitoring well installations, using Geoprobe and drill rig methodologies.
- Conduct sampling and contractor oversight during underground storage tank (UST) removals and various remediation projects.
- Attend designated meetings and work with a diverse group of colleagues and clients.
- Plan, prioritize, and organize a diverse workload.
- Perform other duties as needed to support functional or department operations.
- Primary author on National Environmental Policy Act (NEPA) documents, including Categorical Exclusions (CEs), Environmental Assessments (EAs) and Environmental Impact Statements (EISs).
- Review project requirements and implement the necessary project steps to be in compliance with environmental regulations under the NEPA.
- Collect and analyze social, economic and environmental data to be used in analyzing project impact and recommendations.
- Prepare reports and regulatory permits and approvals in compliance with environmental laws.

Requirements

- Bachelor's degree in Environmental Science, Geology, or related Engineering degree
- A minimum of three years of experience performing Phase I/II ESAs.
- Experience with NEPA projects that includes all aspects of NEPA projects, including data analysis, report writing and project implementation a plus
- Federal NEPA experience a plus
- OSHA 40-hour certification and current 8-hour refresher certification are preferred.
- Michigan and Ohio regulatory experience is highly desired.
- Demonstrated strong verbal and written communication skills
- Demonstrated strong organizational skills
- Technical proficiency with computers and Microsoft Word and Excel
- Excellent professional interpersonal skills in order to interact directly with clients and handle sensitive and confidential situations
- Ability to travel frequently on regional day trips and up to 30% overnight, depending on the project.
- A valid driver's license and an insurable driving record
- Successful completion of a pre-employment physical, drug screen and motor vehicle and criminal background checks
- As a federal contractor, employees of TTL must be fully vaccinated against the COVID-19 flu.

Benefits

- Medical, Vision, and Dental Health Insurance
- Health Savings Account
- Life Insurance
- Disability Insurance
- Voluntary Insurance: Accident, Critical Illness and Hospital Indemnity
- Paid Holidays
- Paid Time-off
- Employee Assistance Program
- 401K Retirement Savings Plan with a Company match
